Journal of Gastroenterology and Hepatology (1993) **8**, 626–632

Subject Index to Volume 8

abnormal prothrombin; as a tumour marker and localization in tissues of patients with HCC 212
Aborigines, Australian urbanized; changing prevalence of hepatitis B virus in 410
achalasia; and verrucous carcinoma of the oesophagus (Case Report) 107
actomyosin, cortical; pertussis toxin-induced redistribution of, in rat Kupffer cells 348
acute calculous suppurative cholangitis; emergency endoscopic nasobiliary drainage for 35
adenocarcinoma, cystic; of the pancreas, multiple 'cysts' in (Case Report) 304
adenoma, gastric; diagnosis of, *vs* early gastric cancer 133
adenosquamous carcinoma of the common bile duct; concomitant development with early adenocarcinoma of the gall-bladder (Case Report) 607
adrenal function; hypothalamic-pituitary regulation of, in end-stage non-alcoholic liver disease 247
alanine infusion; model-derived assessment of urea appearance in response to 550
alcoholic liver disease; lymphocyte subsets in 39
α_1-antitrypsin, serum levels; and duodenal ulcer 505
aneurysm, pancreaticoduodenal arterial
(Editorial) 313
rupture of (Case Report) 399
angiogram, hepatic; in detection of HCC (Case Report) 199
angiomyolipoma, hepatic; pre-operative diagnosis of, by imaging (Case Report) 483
angiomyolipoma, small; of the liver (Case Report) 495
anomalous pancreaticobiliary ductal junction; bile acids in 138
antibodies, hepatitis C virus; measurement of 442
antigen-specific immune response; effect of Peyer's patch excision on 63
anti-hepatitis C virus (C-100); incidence of, in liver disease patients in Nantong area, China 232
antimicrobial treatment; of spontaneous bacterial peritonitis (Review) 370
anti-neuronal antibodies, type 1; in small-cell carcinoma with intestinal pseudo-obstruction (Case Report) 604
antiviral therapy, combination; for severe post-liver transplant recurrence of hepatitis B virus infection 353
asymptomatic carriers; of hepatitis C virus, histological findings in 403
Australian Aborigines, urbanized; changing prevalence of hepatitis B virus in 410
autoimmune chronic active hepatitis; and systemic lupus erythematosus (Curr. Clin. Practice) 84
autoimmune hepatitis, type 1; low prevalence of hepatitis C virus infection in patients with 442

bacteria; in the colonic mucosa in ulcerative colitis (Brief Comm.) 116
bacterial biofilm; in the biliary system 28
bacterial peritonitis, spontaneous; antimicrobial therapy and prevention of (Review) 370
biliary carcinoma
with anomalous pancreaticobiliary ductal junction 138
multiple, a case of (Case Report) 607
biliary decompression, for obstructive jaundice; indocyanine green as a prognostic indicator for 557
bile acids; in patients with anomalous pancreaticobiliary ductal junction 138
bile canalicular antigen; processing of S59
biofilm, bacterial; in the biliary system 28
blood transfusion; hepatitis C after S88, S92
book reviews 119, 206, 309, 499, 616
bowel disease, inflammatory
management of (Curr. Clin. Practice) 70
serum interleukin-8 in 508
bowel, irritable; management of (Curr. Clin. Practice) 287
bromodeoxyuridine labelling, *in vitro*; in diagnosis of gastric tumours 133
Budd-Chiari syndrome; hepatic-pericardio-phrenic collateral (natural shunt) in (Case Report) 202

cancer
colorectal, and tumour suppressor genes (Review) 174
gastric
early, diagnosis of 133
epidemiology of precancerous gastric lesions in relation to (Review) 375
Helicobacter pylori and (Review) 294
mutant p53 proteins and (Review) S5
pancreatic, immunohistochemical demonstration of the p53 tumour suppressor gene product in 465
capsaicin; effect on gastrointestinal transit in the rat 513
carbon tetrachloride-induced liver injury; and protective effect of pyrroloquinoline quinone 342
carcinogenesis, colorectal; and tumour suppressor genes (Review) 174
carcinoma
biliary
adenosquamous, with early adenocarcinoma (Case Report) 607
in patients with anomalous pancreaticobiliary ductal junction 138
hepatocellular
epidemiology and clinical aspects of (Review) S1
hepatitis B virus infection and, in Senegal S128
immunohistochemical detection of proliferating cell nuclear antigen in 420
immunological responses against a cell line derived from a patient with 517
in a cirrhotic liver (Case Report) 199
multidrug resistance and (Review) S17
multiple risk factors for S83
mutant hepadnaviruses and (Review) S12
protooncogene activation and (Review) S14
risk of, in Japanese subjects with hepatitis B and D virus infection 433
role of hepatitis B virus in (Review) 95
ruptured lung metastasis of, causing haemothorax (Case Report) 613
sister chromatid exchange in S119

small
detection of preneoplastic lesions of 582
subcutaneous seeding of (Case Report) 195
trimethadione tolerance tests for assessment of hepatic resection 426
tumour markers for 212
small-cell lung, with intestinal pseudo-obstruction and type-1 anti-neuronal nuclear antibodies (Case Report) 604
verrucous, of the oesophagus (Case Report) 107
centrilobular necrosis; pathogenesis of, following congestion of the liver 530
ceruletide; efficacy and safety of, in inducing gall-bladder contraction after shockwave therapy 406
children
Crohn's disease in 462
cytomegalovirus infection in, after liver transplantation 540
therapeutic fibreoptic gastrointestinal endoscopy in 44
chilli, and its pungent ingredient capsaicin; effect on gastrointestinal transit in the rat 513
China, Nantong area; incidence of antibodies to hepatitis C virus in patients with liver disease 232
cholangitis
acute calculous suppurative, emergency endoscopic nasobiliary drainage for 35
autoimmune, spontaneous occurrence of, in senescent mice 7
primary sclerosing
association with chronic ulcerative colitis in Japanese patients 146
liver transplantation for, cf. transplantation for primary biliary cirrhosis 238
cholecystectomy, laparoscopic; in the treatment of diseased gall-bladder (Review) 476
choledochal cyst; in patients with anomalous pancreaticobiliary ductal junction 138
cholestasis, pruritis; therapeutic options for (Curr. Clin. Practice) 168
chromogenic endotoxin assay; with plasma Tween 80 pretreatment 577
chronic active hepatitis; and systemic lupus erythematosus (Curr. Clin. Practice) 84
chronic liver disease; liver transplantation in (Review) 185
cirrhosis of the liver
detection of preneoplastic lesions of small HCC in 582
HCC in (Case Report) 199
hepatitis B-related, somatostatin administration in patients with 15
hepatitis B surface antigen-positive, intravariceal pressure in patients with 157
malnutrition in (Review) 89
measurement of plasma endotoxin in patients with 577
prevalence in Japanese subjects with hepatitis B and D virus infection 433
primary biliary
liver transplantation for, cf. transplantation for primary sclerosing cholangitis 238
low prevalence of hepatitis B and C virus infection in patients with, in Taiwan 574
mouse model for 7
treatment of, with ursodeoxycholic acid 217
Clostridium difficile diarrhoea and colitis; diagnostic tests for (Editorial) 311
colitis
Clostridium difficile, diagnostic tests for (Editorial) 311
ulcerative
associated with colonic malacoplakia (Case Report) 110
association with primary sclerosing cholangitis in Japanese patients 146
bacterial invasion of the colonic mucosa in (Brief Comm.) 116
management of (Curr. Clin. Practice) 70
collateral, hepatic-pericardio-phrenic; in a patient with Budd-Chiari syndrome (Case Report) 202
colon
bacterial invasion of mucosa in ulcerative colitis (Brief Comm.) 116
malacoplakia of (Case Report) 110
colorectal cancer; and tumour suppressor genes (Review) 174
combination antiviral therapy; for severe post-liver transplant recurrence of hepatitis B virus 353
congestion of the liver; pathogenesis of centrilobular necrosis following 530
constipation, chronic; causes and treatment of (Review) 383
contraceptive steroids, oral; portal vein thrombosis associated with prolonged ingestion of (Case Report) 390
core particles; of hepatitis B virus S114
Crohn's disease
in children from the western region of Saudi Arabia 462
management of (Curr. Clin. Practice) 70
cyclin; immunohistochemical detection of, in HCC 420
cystathionine beta-synthase deficiency; causing homocystinuria 60
cystic adenocarcinoma; of the pancreas, multiple 'cysts' in (Case Report) 304
cytomegalovirus infection; after liver transplantation in children 540
cytoplasm, hepatocyte; ultrastructural filament organization of, revealed by embedment-free sections of rat liver 451
cytoskeleton, hepatocyte; ultrastructural organization of 451
cytotoxic T lymphocytes; activity of, against an autologous human HCC cell line 517

decompression, biliary; for obstructive jaundice, indocyanine green as a prognostic indicator of 557
defecation, obstructed; causes and treatment of (Review) 383
diagnosis
of gastric adenomas and cancers 133
pre-operative, of hepatic angiomyolipoma by imaging (Case Report) 483
of small angiomyolipoma of the liver by fine-needle aspiration biopsy (Case Report) 495
test for *Clostridium difficile* diarrhoea and colitis (Editorial) 311
diarrhoea
diagnostic tests for *Clostridium difficile* (Editorial) 311
patterns, pathogenesis and prevention 259
diethyldithiocarbamate-induced gastric antral ulcer in rats; role of oxygen radicals and superoxide dismutase in the mechanism of, and protective effect of various drugs 457
Dieulafoy's disease; Doppler-controlled injection treatment of 267
dipeptidyl peptidase IV; messenger RNA regulation of, in rat hepatoma cells 142
Doppler-controlled endoscopic treatment; of Dieulafoy's disease 267
duodenal ulcer
high prevalence of, in Indochinese immigrants 128
and serum α_1-antitrypsin levels 505
dyspepsia, non-ulcer
immunoreactive-somatostatin concentrations of the gastric mucosa and mood state 322

management of (Curr. Clin. Practice) 279

E3123, a new potent protease inhibitor; protective effect on rat acute pancreatitis 52
embedment-free section technique; for examination of rat hepatocyte ultrastructure 451
encephalopathy, hepatic
management of (Curr. Clin. Practice) 363
subcortical somatosensory evoked potentials in patients with 545
end-stage non-alcoholic liver disease; hypothalamic-pituitary adrenal function in 247
endoscopic nasobiliary drainage; emergency, for acute suppurative cholangitis 35
endoscopy
Doppler-controlled, of Dieulafoy's disease 267
therapeutic fibreoptic gastrointestinal, in children 44
endotoxaemia, portal; and pathogenesis of centrilobular necrosis in patients with congestion of the liver 530
endotoxin assay, chromogenic; with Tween 80 pretreatment 577
envelope protein; of hepatitis C virus S70
Escherichia coli; infection with, in persistent childhood diarrhoea 259
ethanol-induced gastric mucosal injury; prostaglandin protection against 123
evoked potentials, subcortical somatosensory; in patients with hepatic encephalopathy 545
extrahepatic portal hypertension; rectal varices in 244
extrahepatic portal vein obstruction, in adults; detected by ultrasound 161

ferritin H and L subunit messenger RNA; differential regulation of, during inflammation and long-term iron overload 21
fine-needle aspiration biopsy
for diagnosis of small angiomyolipoma of the liver, under ultrasound guidance (Case Report) 495
subcutaneous seeding after (Case Report) 195
fine-needle direct puncture; measurement of intravariceal pressure by 157
follow up; of 53 adult patients alive beyond 2 years after liver transplantation 569

gall-bladder
contractions, induced by ceruletide 406
use of laparoscopic cholecystectomy in (Review) 476
gallstones; treatment of, by induced gall-bladder contraction after extracorporeal shockwave lithotripsy 406
gastric adenoma; diagnosis of, *vs* early gastric cancer 133
gastric antral ulcer; in rats, induced by diethyldithiocarbamate 457
gastric cancer
early, diagnosis of, *vs* gastric adenoma 133
Helicobacter pylori and (Review) 294
gastric lesions, precancerous; epidemiology of (Review) 375
gastric mucosa
immunoreactive-somatostatin concentrations in 322
oxidative stress and Vitamin E in injury of 254
prostaglandin protection against ethanol-induced injury of 123
gastrointestinal bleeding, upper
measurement of plasma endotoxin in cirrhotics with 577
occult, measurement of 328
gastrointestinal endoscopy, therapeutic; in children 44
gastrointestinal involvement; in homocystinuria 60
gastrointestinal tract; neuronal nitric oxide in (Review) 590
gastrointestinal transit, in the rat; effect of chilli and its pungent ingredient capsaicin on 513
genotypic subtyping; of hepatitis C virus 150
growth hormone; elevated levels in patients with non-alcoholic liver disease 448

haematoma, retroperitoneal; due to ruptured microaneurysm of the pancreaticoduodenal artery (Case Report) 399
haemodynamics, hepatic and systemic; changes in, following somatostatin administration 15
haemothorax; caused by ruptured lung metastasis of HCC (Case Report) 613
haem-porphyrin assay, for measuring gastrointestinal blood loss; comparison with radiochromium method 328
Helicobacter pylori; and gastric cancer (Review) 294
hepadnavirus; role in HCC (Review) 95, S12
hepatic angiomyolipoma; pre-operative diagnosis of, by imaging (Case Report) 483
hepatic congestion; pathogenesis of centrilobular necrosis following 530
hepatic encephalopathy
management of (Curr. Clin. Practice) 363
subcortical somatosensory evoked potentials in patients with 545
hepatitis
autoimmune type 1, low prevalence of hepatitis C virus infection in patients with 442
chronic active, and systemic lupus erythematosus (Curr. Clin. Practice) 84
chronic persistent, marked retention of indocyanine green and sulfobromophthalein with (Case Report) 489
fulminant, enhanced production of leukotriene B_4 in 228
hepatitis A virus, vaccines against 338, (Review) S21
hepatitis B virus
carrier of, with marked retention of indocyanine green and sulfobromophthalein (Case Report) 489
changing prevalence of, in urbanized Australian Aborigines 410
chronic infection with, natural history of (Review) 470
core particles of S114
DNA in peripheral blood mononuclear cells S75
gene expression S128
HCC and, in Senegal S128
hepatitis D virus superinfection of Japanese subjects with chronic infection with 433
infection among prostitutes in Taiwan 334
low prevalence of infection with, in patients with primary biliary cirrhosis in Taiwan 574
pol protein of S54
prevalence of anti-hepatitis D virus in, in Japan 565
protooncogene activation and (Review) S14
regulation of core promoter of S110
role in HCC (Review) 95
severe post-liver transplant recurrence of infection with, controlled by combination antiviral therapy 353
vaccination against (Review) S21; S27, S30, S99
hepatitis B-related cirrhosis, changes in haemodynamics following somatostatin administration 15
hepatitis B surface antigen-positive cirrhotic patients, effect of vasopressin on intravariceal pressure in 157
hepatitis B surface antigen positivity, isolated; implications of S123
hepatitis C, acute post-transfusion S88, S92
hepatitis C, chronic
interferon treatment of 535, (Editorial) 209
significance of sublobular hepatic necrosis in the progression of 224

hepatitis C virus
classification into three subgroups S70
effects of interferon on replication of 1
genotype, correlation with response to interferon therapy 535
genotypic subtyping of 150
histological findings in asymptomatic carriers of 403
improvement in antibody detection of S33
incidence of antibodies to, in patients with liver diseases in the Nantong area, China 232
low prevalence of infection
in patients with autoimmune hepatitis type 1 442
in patients with primary biliary cirrhosis in Taiwan 574
quantitative analysis of S40
variations in nucleotide sequence of S66
hepatitis D virus
infection with, among prostitutes in Taiwan 334
local spread of infection with, in Japan 565
superinfection with, effect on Japanese subjects with chronic hepatitis B virus
infection 433
severe acute; subcortical somatosensory evoked potentials in patients with hepatic encephalopathy caused by 545
hepatocellular carcinoma
epidemiology and clinical aspects of (Review) S1
hepatitis B virus infection and, in Senegal S128
immunohistochemical detection of proliferating cell nuclear antigen in 420
immunological responses against a cell line of 517
in a cirrhotic liver becoming detectable within a month (Case Report) 199
multidrug resistance and (Review) S17
multiple risk factors for S83
mutant hepadnaviruses and (Review) S12
protooncogene activation and (Review) S14
risk of, in Japanese subjects with hepatitis B and D virus infection 433
role of hepatitis B virus in (Review) 95
ruptured lung metastasis of, causing haemothorax (Case Report) 613
sister chromatid exchange in S119
small
detection of preneoplastic lesions of 582
subcutaneous seeding of (Case Report) 195
trimethadione tolerance test for the assessment of feasible size of hepatic resection in patients with 426
hepatocyte cytoskeleton; ultrastructural organization of, revealed by embedment-free sections of rat liver 451
hepatoma cells, rat; regulation of dipeptidyl peptidase IV messenger RNA in 142
histological findings; in asymptomatic carriers of hepatitis C virus 403
histological grade of HCC; immunohistochemical detection of proliferating cell nuclear antigen and relationship to 420
homocystinuria; gastrointestinal involvement in 60
hypothalamic-pituitary adrenal function; in end-stage non-alcoholic liver disease 247

immune response; changes in, elicited by Peyer's patch excision in adult rats 63
immune tolerance; to hepatitis B virus (Review) 470
immunoglobulin A; effect of Peyer's patch excision on 63
immunohistochemistry
analysis of lymphocyte subsets by 39
detection
of proliferating cell nuclear antigen in HCC by 420
of p53 tumour suppressor gene product in pancreatic cancer and chronic pancreatitis by 465
diagnosis of gastric tumours with bromodeoxyuridine 133
immunological responses; against an autologous human HCC cell line 517
Indochinese immigrants, in Australia; high prevalence of duodenal ulcer in 128
indocyanine green
marked retention of, with chronic persistent hepatitis (Case Report) 489
maximal excretion rate of, as a prognostic indicator 557
inflammation; differential regulation of ferritin H and L subunit messenger RNA during 21
inflammatory bowel disease
management of (Curr. Clin. Practice) 70
serum interleukin-8 in 508
interferon
α-2b, recombinant, in treatment of acute post-transfusion hepatitis C S92
effects of, on hepatitis C virus replication 1
factors useful in predicting the response to, in chronic hepatitis C 535
hepatitis C virus-related antibodies in treatment with S103
in treatment of chronic hepatitis C infection (Editorial) 209
interleukin-8, serum concentrations of; in inflammatory bowel disease 508
intestinal damage; role of mucosal T cells in 270
intestinal lymph; effect of Peyer's patch excision on 63
intestinal microcirculation; in the rat 315
intestinal motility, in the rat; effect of chilli and its pungent ingredient capsaicin on 513
intestinal pseudo-obstruction; and small-cell carcinoma of the lung (Case Report) 604
intestine, small; role of mucosal T cells in growth, development and enteropathy of 270
intravariceal pressure; effect of vasopressin on, in hepatitis B surface antigen-positive cirrhotic patients 157
iron overload, long-term; differential regulation of ferritin H and L subunit messenger RNA during 21
irritable bowel syndrome; management of (Curr. Clin. Practice) 287

Japan
hepatitis D superinfection of patients with chronic hepatitis B virus infection in 433
local spread of hepatitis D infection in 565
prevalence of primary sclerosing cholangitis and other liver diseases in patients with chronic ulcerative colitis 146
jaundice, obstructive; biliary decompression for 557

Kupffer cells, rat; pertussis toxin-induced redistribution of cortical actomyosin and inhibition of phagocytosis in 348

laparoscopic cholecystectomy; in the treatment of diseased gall-bladder (Review) 476
leukotriene B_4; enhanced production of, in fulminant hepatitis 228
lithotripsy, extracorporeal shockwave; induced gall-bladder contraction accelerates fragment clearance after 406
liver cirrhosis; malnutrition in (Review) 89
liver disease
alcoholic, lymphocyte subsets in 39
acute and chronic, liver transplantation in (Review) 185
clinical evaluation of serum levels of the tissue inhibitor of metalloproteinases-1 in 437

end-stage non-alcoholic, hypothalamic-pituitary adrenal function in 247
incidence of antibodies to hepatitis C virus in patients with, in the Nantong area, China 232
non-alcoholic, elevated levels of growth hormone in patients with 448
pathogenesis and assessment of malnutrition in (Review) 89
prevalence in Japanese patients with chronic ulcerative colitis 146
systemic lupus erythematosus and (Curr. Clin. Practice) 84
liver function; model-derived assessment of 550
liver injury, carbon tetrachloride-induced; in the rat, and protective effect of pyrroloquinoline quinone 342
liver regeneration; role of oestrogen receptor in, in the male rat (Brief Comm.) 524
liver transplantation
follow up of 53 adult patients alive beyond 2 years after 569
for primary sclerosing cholangitis vs primary biliary cirrhosis 238
in children
cytomegalovirus infection after 540
recurrence of hepatitis B virus infection after 353
recurrence of hepatitis B virus infection following, controlled by combination antiviral therapy 353
selection of patients for (Review) 185
luminal factors; role in prostaglandin protection against ethanol-induced gastric mucosal injury 123
lung metastasis of HCC; rupture of, causing haemothorax (Case Report) 613
lung, small-cell carcinoma of; with intestinal pseudo-obstruction and type-1 anti-neuronal nuclear antibodies (Case Report) 604
lymphatic system, intestinal; changes elicited in, by Peyer's patch excision 63
lymphocyte subsets; quantitative immunohistochemical analysis of, in alcoholic liver disease 39

malacoplakia, colonic; associated with ulcerative colitis (Case Report) 110
malnutrition; in liver disease (Review) 89
Mayo risk score; improvement of, in primary biliary cirrhosis 217
messenger RNA, ferritin H and L subunit; differential regulation of 21
metalloproteinases-1, tissue inhibitor of; clinical evaluation of serum levels of, in liver disease patients 437
metastasis, lung; rupture of, in HCC (Case Report) 613
microaneurysm, ruptured; of the pancreaticoduodenal artery, causing retroperitoneal haematoma (Case Report) 399
microvascular response; in rat intestine during acute elevation of portal pressure 315
mixed venous oxygen saturation; usefulness of continuous monitoring of, during hepatic resection (Case Report) 394
mood state; in patients with non-ulcer dyspepsia 322
mucosa, colonic; bacterial invasion of, in ulcerative colitis (Brief Comm.) 116
multidrug resistance; and HCC (Review) S17
multiple biliary carcinoma (Case Report) 607
mutations; in p53 gene (Review) S5

natural shunt; in a patient with Budd-Chiari syndrome (Case Report) 202
necrosis, centrilobular; pathogenesis of, following congestion of the liver 530
necrosis, sublobular hepatic; significance of, in the progression of chronic hepatitis C 224
neoplasia, colorectal; and tumour suppressor genes (Review) 174
neurotransmission; mediated by nitric oxide, relationship with gastrointestinal motility (Review) 590
nipradilol; use in experimental portal hypertension, cf. propanolol 414
nitric oxide, neuronal; in the gastrointestinal tract (Review) 590
non-alcoholic liver disease; elevated levels of growth hormone in patients with 448
non-ulcer dyspepsia; management of (Curr. Clin. Practice) 279

obstructive jaundice; indocyanine green as a prognostic indicator in patients undergoing biliary decompression for 557
occult blood loss, upper gastrointestinal; measurement of 328
oesophageal dilatation; in children 44
oesophagus; verrucous carcinoma of the (Case Report) 107
oestrogen receptor; role of, in liver regeneration in the male rat (Brief Comm.) 524
oxidative stress; in gastric mucosal injury 254
oxygen saturation, mixed venous; usefulness of continuous monitoring of, during hepatic resection (Case Report) 394
oxygen consumption, whole body; during extracorporeal hepatic resection (Case Report) 394

p53 protein
functions of (Review) S5
immunohistochemical detection of, in pancreatic cancer and chronic pancreatitis 465
pancreas; cystic disease of (Case Report) 304
pancreatic cancer; immunohistochemical demonstration of the p53 tumour suppressor gene product in 465
pancreaticoduodenal artery
aneurysms of (Editorial) 313
ruptured microaneurysm of, causing retroperitoneal haematoma (Case Report) 399
pancreatitis, acute; combination therapy for 52
pancreatitis, chronic; immunohistochemical demonstration of the p53 tumour suppressor gene product in 465
peripheral blood mononuclear cells
enhanced production of leukotriene B_4 by 228
hepatitis B virus DNA in S75
peritonitis, spontaneous bacterial; antimicrobial therapy and prevention of (Review) 370
pertussis toxin; redistribution of cortical actomyosin and inhibition of phagocytosis induced by, in rat Kupffer cells 348
Peyer's patch; effect of excision of, in adult rats 63
P-glycoproteins; and HCC (Review) S17
phagocytosis, in rat Kupffer cells; pertussis toxin-induced inhibition of 348
pigment stones, brown; pathogenesis of 28
PIVKA-II; concentrations and localization of in various liver diseases 212
polymerase chain reaction
in detection of hepatitis C virus (Editorial) 209
in genotypic subtyping of hepatitis C virus 150
in quantitative analysis of hepatitis C virus S40
portal hypertension
acute, and microvascular response in rat intestine 315
experimental, use of propanolol *vs* nipradilol in 414
extrahepatic, rectal varices in 244
frequent lack of signs of, in extrahepatic portal vein obstruction 161
portal vein obstruction, extrahepatic; detected in adults by ultrasound 161
portal vein thrombosis; association with prolonged ingestion of contraceptive steroids (Case Report) 390
precancerous gastric lesions; epidemiology of (Review) 375

preneoplastic lesions; of small HCC, detection of 582
primary biliary cirrhosis
liver transplantation for, cf. transplantation for primary sclerosing cholangitis 238
low prevalence of hepatitis B and C virus infection in patients with, in Taiwan 574
mouse model for 7
treatment with ursodeoxycholic acid 217
primary sclerosing cholangitis
liver transplantation for, cf. transplantation for primary biliary cirrhosis 238
prevalence in Japanese patients with chronic ulcerative colitis 146
proliferating cell nuclear antigen; immunohistochemical detection of, in HCC 420
propanolol
in experimental portal hypertension, cf. nipradilol 414
in maintaining post-sclerotherapy variceal obliteration 358
prostaglandin protection; against ethanol-induced gastric mucosal injury 123
protooncogene *c-jun*; transactivation of (Review) S14
pruritus and cholestasis; therapeutic options for (Curr. Clin. Practice) 168
pyrroloquinoline quinone and its derivatives; protective effect against carbon tetrachloride-induced liver injury in rats 342

radiochromium method, for measuring gastrointestinal blood loss; comparison with haem-porphyrin assay 328
receptor, oestrogen; role of, in liver regeneration in the male rat (Brief Comm.) 524
rectal varices; in extrahepatic portal hypertension 244
regeneration of the liver; role of oestrogen receptor in, in the male rat (Brief Comm.) 524
resection, hepatic
trimethadione tolerance test for the assessment of feasible size of, in patients with HCC 426
oxygen consumption during (Case Report) 394
retroperitoneal haematoma; due to ruptured microaneurysm of the pancreaticoduodenal artery (Case Report) 399
RNA, hepatitis C virus
detection of 442
quantitative analysis of S40
RNA, messenger; in regulation of dipeptidyl peptidase IV 142
rupture of lung metastasis; of HCC, causing haemothorax (Case Report) 613

Saudi Arabia; Crohn's disease in children from the western region of 462
sclerotherapy
in children 44
use of propanolol to maintain variceal obliteration after 358
section technique, embedment-free; for the examination of the rat hepatocyte ultrastructure 451
seeding, subcutaneous; after fine-needle aspiration biopsy (Case Report) 195
senescent mice; spontaneous occurrence of autoimmune cholangitis in 7
serum levels; clinical evaluation of the tissue inhibitor of metalloproteinases-1, in patients with liver diseases 437
Shiomarin, a cephalosporin; protective effect of, on rat acute pancreatitis 52
shockwave lithotripsy, extracorporeal; induced gall-bladder contraction accelerates fragment clearance after 406
sinusoidal perfusion, effective; reduction of, by somatostatin 15
small-cell carcinoma of the lung; with intestinal pseudo-obstruction and type-1 anti-neuronal nuclear antibodies (Case Report) 604
somatostatin
administration of, in patients with hepatitis B-related cirrhosis 15
immunoreactive concentrations of, in the gastric mucosa of patients with non-ulcer dyspepsia 322
stents, biliary; blockage of 28
stomach, human; immunoreactive-somatostatin concentrations of the, in patients with non-ulcer dyspepsia 322
stones, bile duct; potential treatment by endoscopic nasobiliary drainage 35
subcutaneous seeding; after fine-needle aspiration biopsy (Case Report) 195
sublobular hepatic necrosis; significance of, in the progression of chronic hepatitis C 224
sulfobromophthalein; marked retention of, with chronic persistent hepatitis (Case Report) 489
superoxide dismutase; role of, in mechanism of diethyldithiocarbamate-induced gastric antral ulcer in rats 457
surgery, minimally invasive; use of laparoscopic cholecystectomy in (Review) 476
systemic lupus erythematosus; and the liver (Curr. Clin. Practice) 84

T cells
cytotoxic activity of, against an autologous human HCC cell line 517
mucosal, role in intestinal growth, development and enteropathy of 270
Taiwan
acute post-transfusion hepatitis C in S88
hepatitis B and D virus infection among prostitutes in 334
low prevalence of hepatitis B and C virus infection in patients with primary biliary cirrhosis in 574
taurocholate-induced pancreatitis; in the rat 52
thrombosis, portal vein; association with prolonged ingestion of contraceptive steroids (Case Report) 390
tissue inhibitor of metalloproteinases-1, serum levels of; clinical evaluation of, in patients with liver diseases 437
tolerance, immune; to hepatitis B virus (Review) 470
transmission, of hepatitis B virus infection; among urbanized Australian Aborigines 410
transplantation, liver
cytomegalovirus infection after, in children 540
follow up of 53 adult patients alive beyond 2 years following 569
for primary sclerosing cholangitis vs primary biliary cirrhosis 238
recurrence of hepatitis B virus infection following 353
selection of patients for (Review) 185
trimethadione tolerance test; for the assessment of feasible size of hepatic resection in patients with HCC 426
tumour, hepatic; pre-operative diagnosis of, by imaging (Case Report) 483
tumour markers; for HCC 212
tumour suppressor gene product, p53
functions of (Review) S5
immunohistochemical detection of, in pancreatic cancer and chronic pancreatitis 465
tumour suppressor genes; and colorectal neoplasia (Review) 174
Tween 80 pretreatment; chromogenic endotoxin assay with 577

ulcer
duodenal
high prevalence of, in Indochinese immigrants 128
and serum α_1-antitrypsin levels 505

gastric antral, induced by diethyldithiocarbamate in rats 457
ulcerative colitis
associated with colonic malacoplakia (Case Report) 110
bacterial invasion of the colonic mucosa in (Brief Comm.) 116
chronic, association with primary sclerosing cholangitis in Japanese patients 146
ultrasound
extrahepatic portal vein obstruction detected by 161
in guidance of fine-needle aspiration biopsy (Case Report) 495
ultrastructural organization of hepatocyte cytoskeleton; revealed by embedment-free sections of rat liver 451
urea; appearance of, in response to alanine infusion 550
ursodeoxycholic acid; in the treatment of primary biliary cirrhosis 217
vaccination
against hepatitis A and B 338, (Review) S21
against hepatitis B S27, S30, S99
variceal obliteration, post-sclerotherapy; use of propanolol to maintain 358
varices, rectal; in extrahepatic portal hypertension 244
vasopressin; effect of, on intravariceal pressure, in hepatitis B surface antigen-positive cirrhotic patients 157
verrucous carcinoma; of the oesophagus and achalasia (Case Report) 107
virus replication; of hepatitis C 1
Vitamin E; attenuating effect of, on gastric mucosal injury 254
